(Crit Pit, McEwen School of Architecture)

This day-long conference which includes a series of invited lecturers from the McEwen School of Architecture, Laurentian University and external speakers will begin a dialogue on the economic, environmental, industrial and design issues surrounding the development of an architectural wood industry.

(Governors' Lounge, 11th floor, R.D. Parker Building)

Dr. Louis-Philippe Rochon, Editor of the Review of Political Economy, will discuss the dos and don'ts of submitting a paper, and how to enhance your chances of getting published.

(FA-386, Executive Learning Centre)

Dr. Andrew Brookes, Adjunct Associate Professor in Outdoor and Environmental Education at La Trobe University in Australia, will share insights on preventing fatalities in outdoor education with children and youth. This differs from generic risk and safety management procedures, and is from an extensive case-based study of fatality prevention in the outdoor education field. It will be followed by a discussion period.

(Governors' Lounge, 11th floor, R.D. Parker Building)

SNOLAB and the Department of Physics present a fast, fun and informative round of talks to provide an update of experiments underway at SNOLAB.
